Community Clean Stations

Due to societal changes, the environment surrounding our Clean Stations (garbage collection points) has also changed. To address these challenges, Kobe City is currently implementing various measures:

Problems Faced by Clean Stations

Increase in Crow Damage

If garbage disposal rules (schedule and sorting) are not followed, crows tend to work together to scavenge garbage from within the crow nets. To counter this, the City is providing “Crow Repellent Nets” for free.

Further Details (JPN) →

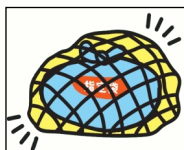

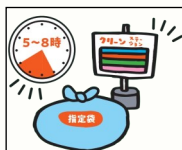

Request to Citizens

We ask for everyone's cooperation in order to maintain our Clean Stations. **Please help solve the current problems by following these rules:**

- ① Adhere to the designated collection days and time schedule
- ② Place garbage inside the crow repellent nets
- ③ Follow the correct way of separating trash

※Please note: items such as TVs and refrigerators cannot be disposed at Clean Stations.

Information on collection schedule and correct garbage sorting (JPN) →

Watch Out for Scams!

In 2023, there were 454 cases of “It’s me” scams in the city, resulting in losses of approximately 620 million yen. Here are some common scams and tips on how to avoid it:

Case ① Investment Scams

Clicking on a social media ad about a celebrity holding an investment class led to being added to a group chat where the victim was scammed out of investment funds.

Case ② Refund Scams

Receiving a call about a medical refund and following instructions at an ATM led to money being transferred to scammer instead.

Case ③ Side Job Scams

Seeing a social media post about a side job and signing up for a seminar led to being pressured into buying expensive investment study materials.

Recognize these phrases to avoid scams:

“Guaranteed easy money”, “Buy a prepaid card”, “Receive money at an ATM” are all phrases commonly heard in fraudulent scams.

If you hear these phrases, hang up immediately!

If needed, please contact the Consumer Hotline consultation desk:

TEL: 188

Office Hours: 9:00~17:00 (10:00~16:00 on weekends and holidays)

Details about consultation desk

Want to Give Back to Your Local Community?

Do you want to contribute to your community but don't know where to start? Kobe City now offers support to turn your desire to help into action!

① Community Contribution Consultation Desk

Anyone can consult about starting activities and events or about issues you face while participating!

Examples:

- I want to use my experience and skills for the community after retirement
- I want to increase companions for river clean-up activities
- I want to support the local community by collaborating in summer festivals

Contact: 078-322-5182 (excluding weekends and holidays) or visit the Community Consultation Desk homepage.

② Volunteer Matching Site: "Borakuru"

This is a website that connects people who want to volunteer or participate in community activities with NPOs and other community groups looking for companions and collaborators. It's easy to use and navigate!

Examples of Volunteer Recruitment:

- Learning support for elementary school students
- Assistance in operating children's cafeterias
- Weeding fields and maintaining trees and greenery

Contact: 078-230-9774 (9:30~17:30, excluding weekends and holidays)

Email: supportnpo@stylebuilt.co.jp
